TPP
TRANS PACIFIC PARTNERSHIP

What is the Trans-Pacific Partnership Agreement (TPP)?

The Trans-Pacific Partnership (TPP) is a secretive, multi-national trade agreement that threatens to extend restrictive intellectual property (IP) laws across the globe and rewrite international rules on its enforcement.

- TPP will institute **SOPA, PIPA, and CISPA-like regulations** and Internet measures which restrict our right to free speech.
- TPP will **offshore millions of good-paying jobs** to low-wage nations, undercutting working conditions globally and increasing unemployment.
- TPP will expand pharmaceutical monopoly protections and institute longer patents that **will decrease access to affordable medications**
- TPP will **limit food GMO labeling** and allow the **import of goods that do not meet US safe standards.**
